

1. Horizontal 2x10 cedar board sunscreen suspended from roof of Entry Pavilion
2. Wood screen from 10x10 posts and 2x10 boards randomly spaced
3. 8" cedar siding (stained or pressure treated). Random pattern from some boards being 2" thick versus 1"
4. Translucent glazing system - tinted polycarbonate
5. Clerestory. Enclosure finish - stained wood. Vertical glazing - translucent polycarbonate
6. 4" concrete block veneer/1" airspace with vapour barrier/4" rigid insulation/8" concrete block
7. Vertical metal cladding with standing seam. Finishes could be galvalume or prefinished grey
8. 8" cedar siding. Unlike 3., there is no random pattern - one smooth finish or plane
9. Glass atrium - curtain wall
10. Glass windows
